

Barry Carlyon for Regional Officer (North East/Yorkshire) 2008-2009

As Webmaster of LSRfm.com for the previous three years, and my due to my own natural disposition, I have been involved, with many departments, from my own, to Music, Publicity and News.

This means that I am aware of the demands and requirements that a lot of Student Radio Members, put upon them and their teams, as Team Leaders or Team Members.

I am also an active member of the Student Radio Association, thru the medium of the SRA Forum, where I am a Moderator, and for the past year I have also been the Regional Representative.

Further more as Media Rep for Leeds University Union, I am more aware of different Media, and would like to push the use of alternative media to Radio, for further promotion, of each Station within their University.

I would like to build on the links I have gathered this year, in order to further push the message of Student Radio, to those who are not currently members.

So with this in mind I think I can be a good regional officer, Lending my experiences, knowledge, and expertise, where needed.

I aim to:

- Be Approachable,
- Always able to take time out to help, with anything, at the station, local or national level,
- A Useful source of information regarding the association, and Student Radio in General,
- Talk to every station manager (member and non-member) in my region, to find out,
 - How I can help them,
 - What they expect from me,
 - What they expect from the Association,
- Talk to the other Regional Offices, and lend support where needed,
- Liaise with the SRA Exec,
- Fulfill the Responsibilities as set by the regional Executive,
- And, help and assist Non Member Stations, to show them how the Association Can Help Them.
