

MATTHEW HURST

TREASURER

This year, the Exec have done an incredible job of laying the financial groundwork for a strong future.

I'm running for this new position in my third year because I believe it takes somebody with experience of the organisation to manage it's finances.

I don't know if you, like me, agree that the priorities for the year ahead are:

- **To pay off all outstanding debts.**
- **To balance the cost of all new projects against incoming sponsorship revenue.**
- **To make sure all officers are aware of the financial situation – and to provide them with individual budgets to fulfil their remit.**
- **To provide timely and dynamic budgets for events such as the Student Radio Awards & The Conference.**

I already have two years experience within the SRA as Development Officer – and am responsible for drafting the constitution which governs how the organisation is run.

I am meticulously well organised, have a tax inspector in the family, and have 6 years experience working with finances.
